> Don't worry about failure; you only have to be right once.
>
> - Drew Houston, Dropbox found + CEO

I am motivated at the opportunity to design a product, application, or space. To make it beautiful to look at, easy to use and more efficient than when it started. I live to make what we have around us better. I believe in failing and learning what went wrong to use in the future success. If we gave up after every failure where would we be today?
